

# Microsoft Learn Spark possibility

# Microsoft Identity and Access Administrator

## Introduction

## About this course

### Overview

- The Microsoft identity and access administrator designs, implements, and operates an organization's identity and access management systems by using Microsoft Entra ID and supporting identity technologies. They configure and manage authentication and authorization of identities for users, devices, Azure resources, and applications.

### The Identity and Access Administrator course could be a great fit for you if you'd like to:

- Implement and administer identity solutions within your cloud environment.
- Explore and implement Zero Trust principles for your solutions.
- Collaborate across your business to define and drive identity projects to modernize your solutions.
- Drive identity governance across Azure and Microsoft 365 solutions.

# Get ready for your Microsoft Certification exam

Exam SC-300: Identity and Access Administrator covers the features and capabilities of Microsoft Entra ID, and other identity and access components in Microsoft Azure and Microsoft 365.

## Understand the skills measured by the exam

Study area	Percentage
Implement and manage user identities	20-25%
Implement authentication and access management	25-30%
Plan and implement workload identities	20-25%
Plan and automate identity governance	25-30%

Percentages indicate the relative weight of each area on the exam.  
The higher the percentage, the more questions you are likely to see in that area.

## Build confidence in your skills

In the exam page, find resources to help prepare:

- Watch exam prep videos
- Review the exam study guide
- Demo the exam experience with the exam sandbox
- Take a practice assessment
