# About this course

## Overview

- The Microsoft identity and access administrator designs, implements, and operates an organization's identity and access management systems by using Microsoft Entra ID and supporting identity technologies. They configure and manage authentication and authorization of identities for users, devices, Azure resources, and applications.

## The Identity and Access Administrator course could be a great fit for you if you'd like to:

- Implement and administer identity solutions within your cloud environment.
- Explore and implement Zero Trust principles for your solutions.
- Collaborate across your business to define and drive identity projects to modernize your solutions.
- Drive identity governance across Azure and Microsoft 365 solutions.

# Get the most out of your Microsoft Learn profile

Verify, track, and share your training and certification progress and accomplishments—*all on one platform*

- Claim your achievement code for this course and share that you have completed it.
- Access your course material and track progress on your learning activities.
- Share and verify your Microsoft Certifications via email, on social networking platforms, and on your résumé.
- Download and print transcripts and certificates.
- Manage your upcoming activities and certification exam appointments.

[www.aka.ms/MyMicrosoftLearnProfile](http://www.aka.ms/MyMicrosoftLearnProfile)

Create your Microsoft Learn profile at [learn.microsoft.com](https://learn.microsoft.com)

- Select *Sign in* at the top, right corner of any Microsoft Learn page.
- Follow the Microsoft account authentication process.
- If the account that you have chosen to sign in with doesn't already have a Microsoft Learn profile, you'll be guided to create one.

# Access your course material

All course content is available on Microsoft Learn

[learn.microsoft.com/training/courses/browse](https://learn.microsoft.com/training/courses/browse)

- We'll go through this content together and, as the course progresses, I will advise you on which modules to review.
- You can provide feedback for modules on Microsoft Learn. Find how at the bottom of each page.

This course includes labs:

- Detailed lab instructions are included in your lab environment.
