About this course

Overview

- The Microsoft identity and access administrator designs, implements, and operates an organization's identity and access management systems by using Microsoft Entra ID and supporting identity technologies. They configure and manage authentication and authorization of identities for users, devices, Azure resources, and applications.

The Identity and Access Administrator course could be a great fit for you if you'd like to:

- Implement and administer identity solutions within your cloud environment.
- Explore and implement Zero Trust principles for your solutions.

- Collaborate across your business to define and drive identity projects to modernize your solutions.
- Drive identity governance across Azure and Microsoft 365 solutions.

Agenda
- LP 1   Implement an Identity Management Solution
- LP 2   Implement an Authentication and Access Management Solution
- LP 3   Implement Access Management for Apps
- LP 4   Plan and Implement an Identity Governance Strategy

for the course

Let's have a great time together

We all contribute to a great class

- Be on time (class hours)
- Be present (avoid mail, calls, side meetings)

What you should know about our facilities

- Accommodations
- Internet access
- Parking
- Restrooms
- Emergency

Get the most out of your Microsoft Learn profile

Verify, track, and share your training and certification progress and accomplishments—*all on one platform*

- Claim your achievement code for this course and share that you have completed it.
- Access your course material and track progress on your learning activities.
- Share and verify your Microsoft Certifications via email, on social networking platforms, and on your résumé.
- Download and print transcripts and certificates.
- Manage your upcoming activities and certification exam appointments.

www.aka.ms/MyMicrosoftLearnProfile

**Create your Microsoft Learn profile at learn.microsoft.com**

- Select *Sign in* at the top, right corner of any Microsoft Learn page.
- Follow the Microsoft account authentication process.
- If the account that you have chosen to sign in with doesn't already have a Microsoft Learn profile, you'll be guided to create one.
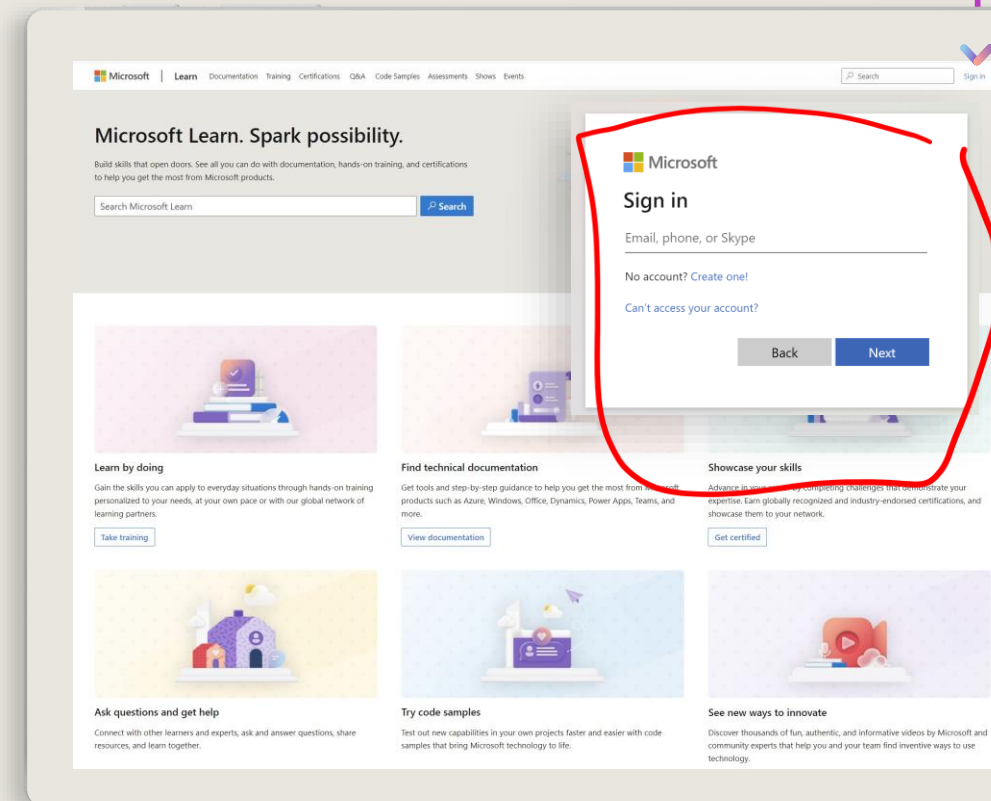

Access your course material

All course content is available on Microsoft Learn

learn.microsoft.com/training/courses/browse

- We'll go through this content together and, as the course progresses, I will advise you on which modules to review.
- You can provide feedback for modules on Microsoft Learn. Find how at the bottom of each page.

This course includes labs:
- Detailed lab instructions are included in your lab environment.

Need help? See our troubleshooting guide or provide specific feedback by reporting an issue.

Celebrate your accomplishments and feel empowered

Get your achievement recognized and earn your badge for completing this course

1. Go to **Achievements** on your Microsoft Learn profile
2. Redeem the code provided by your trainer.
3. Find your new badge **on Modules, Courses & More**.
4. Share your new achievement with your professional network. You can also download and print your certificate.

Get ready for your Microsoft Certification exam

Exam SC-300: Identity and Access Administrator covers the features and capabilities of Microsoft Entra ID, and other identity and access components in Microsoft Azure and Microsoft 365.

Understand the skills measured by the exam

Study area	Percentage
Implement and manage user identities	20-25%
Implement authentication and access management	25-30%
Plan and implement workload identities	20-25%
Plan and automate identity governance	25-30%

Build confidence in your skills

In the exam page, find resources to help prepare:

- Watch exam prep videos
- Review the exam study guide
- Demo the exam experience with the exam sandbox
- Take a practice assessment

Percentages indicate the relative weight of each area on the exam.
The higher the percentage, the more questions you are likely to see in that area.
